> – PRESIDENT DONALD TRUMP

With a few strokes of the pen in December 2019, President Donald Trump officially created the 6th branch of the military - **The Space Force**.

This bold move was not only paramount to our national security…

It just might lead to one of the greatest investing opportunities of the 21st century!

Let me explain…

Space Force is the first new military service since the Air Force was created in 1947…

And it couldn't have come at a better time…

According to a recent article on Defensenews.com

> "CHINA IS DETERMINED TO REPLACE THE U.S. AS THE DOMINANT POWER IN SPACE…THE PENTAGON RECENTLY WARNED CHINA HAS DEVELOPED AND FIELDED GROUND- AND SPACE-BASED ANTI-SATELLITE, DIRECTED-ENERGY, AND ELECTRONIC WARFARE CAPABILITIES THAT PLACE THE PEACEFUL USE OF INTERNATIONAL SPACE AT RISK."

The article continues…

> "TO ENSURE THAT IT CONTINUES TO COMPETE FROM A POSITION OF STRENGTH, THE U.S. MUST INVEST SUFFICIENT RESOURCES IN PREPARING ITS NEW SPACE FORCE TO DEFEND AMERICA'S NATIONAL INTERESTS AND SECURITY IN SPACE."

I think it's pretty safe to say that this new **Space Force** is going to be a HUGE part of our military strategy moving forward…

And it doesn't end there…

The Space Force is also remarkably similar to the Space Race of the early 60's...

The one that saw America come together and commit to a goal of landing a man on the moon…

We accomplished that goal, but we also spent a TON of money along the way…

The exact figures are a little tough to come by…

But I've heard estimates that NASA's total inflation-adjusted costs were more than $900 billion since its creation in 1958…

And that's just NASA!

That doesn't even begin to factor ALL the other companies that benefited from the Space Race along the way…

The economic effects of the Space Race are undeniable…

In a speech from NASA.gov - NASA Administrator Michael Griffin said:

> "WE SEE THE TRANSFORMATIVE EFFECTS OF THE SPACE ECONOMY ALL AROUND US THROUGH NUMEROUS TECHNOLOGIES AND LIFE-SAVING CAPABILITIES. WE SEE THE SPACE ECONOMY IN THE LIVES SAVED WHEN ADVANCED BREAST CANCER SCREENING CATCHES TUMORS IN TIME FOR TREATMENT, OR WHEN A HEART DEFIBRILLATOR RESTORES THE PROPER RHYTHM OF A PATIENT'S HEART... WE SEE IT WHEN WEATHER SATELLITES WARN US OF COMING HURRICANES, OR WHEN SATELLITES PROVIDE INFORMATION CRITICAL TO UNDERSTANDING OUR ENVIRONMENT AND THE EFFECTS OF CLIMATE CHANGE. WE SEE IT WHEN WE USE AN ATM OR PAY FOR GAS AT THE PUMP WITH AN IMMEDIATE ELECTRONIC RESPONSE VIA SATELLITE. TECHNOLOGIES DEVELOPED FOR EXPLORING SPACE ARE BEING USED TO INCREASE CROP YIELDS AND TO SEARCH FOR GOOD FISHING REGIONS AT SEA."

I fully expect the initial budget will push $15.4 Billion Dollars into some key American companies…

But I believe that's just the tip of the iceberg…

Once other countries start getting serious about space, the U.S. will be forced to pull out all the stops to remain on top…

In an article on Business Insider, Morgan Stanley says;

> "...AS MORE INVESTMENTS POUR INTO TECHNOLOGIES LIKE REUSABLE ROCKETS THAT MAKE SPACE EXPLORATION CHEAPER, THAT ECONOMY COULD GROW TO $1 TRILLION, ESPECIALLY AS COUNTRIES RECOGNIZE THE NEED FOR A SPACE PRESENCE TO MAINTAIN NATIONAL SECURITY."

This will inevitably lead to what I call...

The FINAL Frontier Of Wealth In America

By now you should realize how important this new **Space Force** will be to America…

Plain and simple, space is the future!

Which is precisely why my team and I have been working very hard to find the best investments to capitalize on this tremendous space opportunity…

And we've identified 8 solid, long-term companies that stand to benefit greatly …

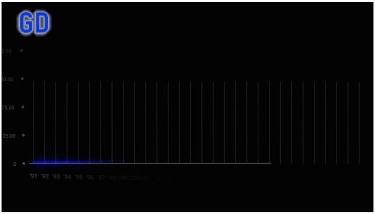
The companies I'm talking about are ones that provide the technology, infrastructure, or man power needed to take on such a lofty goal…

Matter of fact, many of these companies have already benefited from decades of military spending…

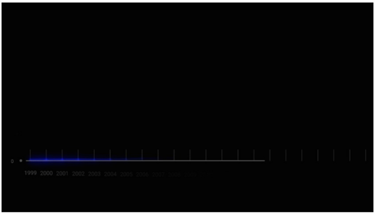
Providing massive wealth to many savvy investors along the way...

Take a look at the extraordinary gains some of these stocks have provided over the past 20 years...

One company rose 682%...

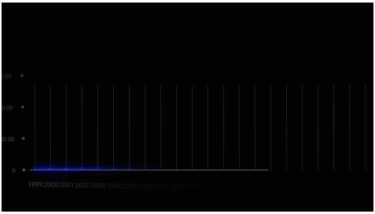


Another rose 1,191%...



Yet another one rose 1,482%...

And the top one saw a staggering 2,202% increase!



That's enough to turn every $10,000 invested into $68,200…$119,100…$148,200...Or even $220,200!

And that's not even the best part…

The stock value of these companies rose by up to 22X...

While the annual military spend only rose by a little over 2X during the same time frame…

Proving that it doesn't take a lot of extra military spending to make these stocks skyrocket!

So, the 8 companies we've identified are almost certain to benefit most from our new **Space Force.** (more on that in just a second)

But first let me introduce myself...

My name is Tom Busby.

I'm a former Air Force Officer (during my service as an Officer at Aviano Air Base I experienced first hand the speed, power and efficiency of the U.S. military's spending to remain the top superpower in the world.)

I've also been an active trader since the late 70's…

That's why I'm very passionate about anything that allows me to combine my love for my country and my skills as an investor…

During my 40 year career trading I've pretty much seen it all...

I'm a Hedge Fund Trader that's been featured on...

...CNN, TradingPub, CNBC, BNN, Bloomberg and many other media outlets...

And I've authored three best selling books:

1. *Winning the Day Trading Game*
2. *The Markets Never Sleep*
3. *Trade to Win*

Now I'm not saying any of this to brag, but rather to let you know that trading is my passion... It's my bread and butter... And what I do very well.

So when I say **Space Force** could create one of the **biggest opportunities for investors in the 21st century**, you know I mean it...

It's already one of the most exciting things to happen with the military in the past 70 years!

And the ripple effect of this new branch of the military will create massive windfalls for savvy investors...

Which will bring about a tremendous amount of wealth for many decades to come...

And It's not just the military that will create this wealth...

Once the effects of the **Space Force** are in full swing, you can expect to see many other companies eager to join the party...

And grab a piece of that potential **Trillion Dollar pie**...

And that's where things will really take off...

This will create another entire economy driven by space...

I expect to see thousands of new millionaires and billionaires rise from this tremendous opportunity...

Listen folks...

It doesn't get much better than this!

Which is why I'm so excited that you're reading this now...

Earlier I told you about the 8 stocks I think will benefit most from the new **Space Force** program...

I packaged them together in a highly valuable report... **"The Final Frontier of Wealth"**
