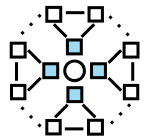
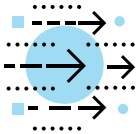
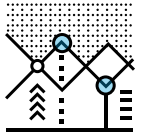
What We Do

Information Builders provides business intelligence (BI), analytics, and data management solutions that help companies manage their data, generate insights, take action, and deliver impact.







Data

Harmonize your **data** to develop trust

Insights

Easily generate **insights** and empower fact-based decisions

Action

Operationalize insights into **action**

Impact

Drive **impact** through data monetization

Actionable Analytics

The WebFOCUS business intelligence (BI) and analytics platform helps companies use data more strategically across and beyond the enterprise.

It enables companies to turn data into actionable insights for real business outcomes.

Though most widely used by businesspeople, WebFOCUS is IT-friendly – the most scalable, secure, easily administered, well-governed platform available for cloud-based and on-premises BI.
