

## Phone Accessories

Face it. In this day and age, you live on your phone. What once was a single, stationary device morphed into dictionary-size mobile ports, and then into the sleek, attractive models we have now. But every upgrade means more to protect. That's why Gizmo Gadget offers the best in affordable phone covers for lenses and screens. From aluminum to chic bamboo, your phone can be well protected while still offering all the aesthetics you desire. And because the phone has become so central to life, be sure to take a look at the various charging ports.

## Smart Apparel

You can follow the nightly meteorologist, but the weather is nothing if not unpredictable. With Gizmo Gadget, you never have to compromise warmth for entertainment. Our double-knitted Bluetooth beanies are just the start of our smart apparel, fitted for those freezing mornings you're stuck on the bus and want to rock out rather than sit and shiver. Our rechargeable battery lasts for over ten hours of hands-free calling, so you never miss that important call when you're in transit.

## Sound and Audio

These days, you're no one if you don't have a podcast. It's slowly replacing the business card. But ensuring lossless audio and easy recording equipment can set you back some. Not at Gizmo Gadget, where we offer some of the best mics for gaming, podcasting, or just recording your nightly jam session. With simple, easy USB installation, you'll be hitting the airwaves like a pro.

## Video and Home Security

Protect your home and property without breaking the bank. Gizmo Gadget offers a variety of high-end security devices. With top of the line fingerprint locks and magnetic sensors, no criminal can outwit their way into your belongings. A Danish study after WWII indicated that criminals possess a lower I.Q. than noncriminals, so a phony security camera is all you'll need to dissuade one from breaking in.

## Virtual Reality

It wasn't that long ago that Virtual Reality was the stuff of popcorn sci-fi. The goofy, bad graphics from *The Lawnmower Man* and *Virtuosity*. But just a look at what Gizmo Gadget has to offer shows how far we've come. Video games have never been more immersive. So whether you're flying around as Iron Man or taking out hordes of the undead in a *Walking Dead* simulation, be sure you're wearing a comfortable strap for your gear. Our headsets are perfect for smartphones, Mac, or PC.
