

## Best Naked Vape Juice

There are many brands out there to choose from for vapers, and with so many on the market, it's hard to tell the most reliable e-juices out there. Enter Naked 100, the premier company in alternative combustible cigarettes. Based out of Huntington Beach, California, their labs promise to deliver the finest in chemistry, with round-the-clock customer service on hand.

More importantly than their sales pitch, we've so far yet to be disappointed by any of their products. Their website can tell you all about their advocacy in fighting underage smoking, but let's be honest, what counts is what they deliver. And we went out of our comfort zone, experimenting with a variety of different vape e-juices to find the best they offer.

## [Apple E-Juice](#)

There's nothing better in the summertime than a nice glass of clear, cider-colored apple juice, and this Naked e-juice, at Misthub, is a perfect recreation of that experience. The same delight you get from ripe, fresh apple juice recently smashed from the orchard is now delivered in smoking form. What's more, once you inhale, your senses are tickled with additional hints of watermelon and the finest grapes.

## [All Melon E-Juice](#)

This remarkable pick from Misthub offers three very distinct melon flavors – canteloupe, watermelon and honeydew. Like the perfect side order of fruit at a brunch, this Naked e-juice sent us on a tropical wonder trip, with the soothing honeydew finish particularly delightful.

## [NAKED 100 CREAM E LIQUID BY SCHWARTZ – BANANA](#)

How does a vape juice, particularly one that feels so light going in, manage to taste just like a heavy cream dessert? We have no idea, but the creamy filling of a banana pie is exactly what we wanted more of after sampling this delicious blend from ejuices.com. The thick, rich flavor was something to aspire to in most bakers we've met, and the scent of ripened banana slices was mouthwatering.

### [Lava Flow](#)

Get ready for an explosion of strawberry. This overload of sweet, red juiciness from ejuiceconnect is a vape juice that thoroughly satisfies. The best, freshest bowl of sweet strawberries topped with sugar might come close to this amazing vape.

## **Cuban Blend**

There are few celebrations worthy of a Cuban cigar, but for times when babies are born, jobs are earned and wars are won, nothing will substitute for a fine, fat stick of contraband. Thankfully, you don't have to find an ex-pat to get one anyone, as this particular ejuice from Direct Vapor gives off the same impression of those Cuban wonders.

### [Berry](#)

Naked has been particularly gifted at mixing fruit flavors, and this combination of berries from Direct Vapor provides just the right blend of Strawberry, Blueberry and just a tinge of blackberry to finish. Come for the familiar fruit flavors you crave, stay for the more experimental mixes that end the experience.

### [Hawaiiin POG](#)

For the absolute best in tropical flavors, Hawaiiin POG at vaping.com gives you the complete experience. The typical pineapple and orange is there, and as expected, it's thoroughly delightful. But this Naked e-juice goes the extra mile and finishes with a fine Guava flavor.
