The laptop market is highly saturated, and we have plenty of options available in the market. If you are looking for the best laptop for video presentations, then you are at the right place.

We have carried out comprehensive market research and reviewed all the latest available laptops in the market. Now, we present the eight best laptops for video PowerPoint presentations of 2021.

Dell XPS 13 (XPS9360)

Specifications

- Processor: 7th generation Intel Core i7 7500u 3.5 GHz (Kaby Lake) Processor
- RAM: 8GB of RAM
- Storage: 256GB solid-state drive (SSD)
- Operating System: Windows 10
- Display: 13-inch screen touch screen with QHD+ (3200 x 1800) resolution

At the top of the list is Dell XPS 13. It is an ultraportable laptop with a stunning sleek design. It has a 13-inch display with an infinity touch technology, a striking feature of a laptop. It has a high-performance Intel Core i7 Processor, which is perfect for video presentations and office workloads. It sports a USB-C port with Thunderbolt 3 support that provides you ultra-fast connectivity and data transfer.

Dell XPS 13 has a high-performance 7th generation Intel Core i7 7500u 3.5 GHz (Kaby Lake) Processor, which can provide outstanding performance on day-to-day tasks. The laptop comes with 8GB of RAM and a 256GB solid-state drive (SSD), which gives you plenty of space to store data in the laptop.

The XPS 13 has a 13-inch Infinity touch display with QHD+ (3200 x 1800) resolution, which is its most striking feature. It has a 60-watt battery, which can last more than 13 hours.

Apple MacBook Air M1

Specifications

- Processor: Apple M1 chip with 8-core CPU, 7-core GPU
- RAM: 8GB or 16GB of RAM
- Storage: 256GB, 512GB, 1TB, or 2TB solid-state drive (SSD)
- Operating System: Windows 10
- Display: 13.3-inch Retina Display with True Tone, (2560 x 1600) resolution

Apple's devices have always been in demand in the market, surpassing this generations' expectations. Apple has revolutionized its laptop series with the MacBook Air M1. The laptop comes with an Apple Silicon processor, a great alternative to Intel chips, and delivers faster speed than older versions. It has an 8-core graphics processor (GPU) with 16 GB of RAM, which provides exceptional performance.

Apple MacBook Air M1 comes with macOS 11 Big Sur. You can install amazing apps through the Mac App Store, which allows you to prepare high-quality presentations in less time than before. 256GB storage space is more than enough to store plenty of your essential data and information. You can also choose other MacBook Air versions with more storage space according to your needs.

The Apple MacBook Air M1 has a sleek design with a premium finishing. Its 13.3-inch retina display with (2560 x 1600) resolution is perfect for video and PowerPoint presentations.

Lenovo Legion Y540

Specifications

- Processor: Intel Core i7-9750H 6 x 2.6 - 4.5 GHz, Coffee Lake-H
- RAM: 16GB of RAM
- Storage: 512GB solid-state drive (SSD)
- Operating System: Windows 10 or Windows 10 Pro
- Display: 15.60 -inch Full HD display with (1920 x 1080) resolution

The Legion Y540 is a slim and lightweight laptop with an elegant design. While the Lenovo Legion is a gaming laptop, this version of the Legion series is also ideal for creating video presentations and other office assignments.

The Lenovo Legion Y540 comes with different configuration options. You can either purchase it with an Intel Core i5-9300H 2.4GHz or Core i7-9750H 6 x 2.6 - 4.5 GHz processor with 16GB to 32GB of RAM. There are also three GPU options available, including the NVIDIA GTX 1650 4GB, GTX 1660 Ti 6GB, and RTX 2060 6GB. Multiple storage options are also available in Legion Y540, including 512GB, 1TB, and 2TB SSD.

The Lenovo Legion Y540-15 comes with a 15.6-inch Full HD display with (1920 x 1080) resolutions, IPS anti-glare screen, and brightness of 300 nits. This heavy-duty laptop has 3 Cell Li-Polymer battery, 57Wh internal battery, giving you up to 5 hours of battery time.

HP Spectre x360

Specifications

- Processor: 10th generation Intel Core i7-1065G7 quad-core processor
- RAM: 16GB of RAM
- Storage: 512GB solid-state drive (SSD)
- Operating System: Windows 10 Pro
- Display: 13.3 -inch 4k touch screen display with (1920 x 1080) resolution

The HP Spectre x360 has a breathtaking design; everything is thin and light. It has everything that a perfect laptop should have including, fast performance, long battery life, and ultra 4K touch display.

HP Spectre x360 is loaded with a 10th generation Intel Core i7-1065G7 quad-core processor with 16 GB DDR4 SDRAM providing an exceptional performance for its users. With a huge 512GB SSD, you won't have to worry about storage space or performance concerns. The laptop has a 13.3-inch full HD touch screen with 1920 x 1080 resolution and a 4K display, making it ideal for video presentations.

ASUS ZenBook 15

Specifications

- Processor: 10th generation Intel Core i7-1065G7 quad-core processor
- RAM: 16GB of RAM

- Storage: 512GB or 1TB solid-state drive (SSD)
- Operating System: Windows 10 Pro
- Display: 15.6-inch screen with 4K display and (1920 x 1080) resolutions
- TouchPad: ScreenPad 2.0

ASUS ZenBook 15 is another ideal option for you if you're looking for a laptop with powerful multi-tasking capabilities. It is a phenomenal device with all the latest specs you need to prepare incredible video PowerPoint presentations, and it features a slim, compact, and elegant design with a 15.6-inch large screen.

10th generation Intel Core i7 quad-core processor provides flawless performance. ZenBook 15 is quite big with a 15.6-inch screen and has a wide-angle UHD 4K display. It has a 92% screen to body ratio, providing a fantastic view for the end-user. 512GB of storage space is more than sufficient to store any type of data you want.

Acer Aspire 7

Specifications

- Processor: Intel Core i7-7700HQ (Kaby Lake) processor
- RAM: 16GB to 32GB of RAM
- Storage: 512GB to 2TB solid-state drive (SSD)
- Operating System: Windows 10
- Display: 15.6-inch screen with 4K display and (1920 x 1080) resolutions

If you are looking for a slim and ultra-light laptop with a stunning design and powerful performance, then the Aspire 7 is the best option for you. It has all the features and specs that any modern multimedia laptop should have.

The Aspire 7 comes with an Intel Core i7 processor with Nvidia GeForce GTX 1050 graphic processor, making it ideal for video edition and PowerPoint presentations. There are different versions of Aspire 7 available in the market. You can purchase one with 16GB RAM and 512GB of storage that is excellent for presentations. Aspire 7 has a 3720 mAh battery, which can give you an extra-long battery life.

LG Gram 17

Specifications

- Processor: 10th-Gen Intel Core i7-1065G7 Processor
- RAM: 16GB of RAM
- Storage: 512GB or 1TB solid-state drive (SSD)
- Operating System: Windows 10 Home
- Display: 17-inch screen with IPS display and (2560 x 1600) resolutions

LG Gram 17 is perfect for those who are looking for a laptop with a large display. You would hardly find a 17-inch laptop that is light in weight and offers a long battery timing. LG Gram 17 not only gives you a UHD 17-inch display, but it also gives you 13 hours of battery life. It comes with a 10-gen Intel Core i7-1065G7 CPU and more powerful Iris plus integrated graphics to provide you with the extra speed you need.

The 17-inch IPS display with 2560 x 1600 resolution gives you more screen space while creating videos and presentations. Overall it is an ideal laptop for those who do programming and graphic designing. Gram 7 is specially designed to provide smooth and nimble performance with durable processing power.

Microsoft Surface Pro X

Specifications

- Processor: Microsoft SQ 1, Microsoft SQ 2
- RAM: 16GB of RAM
- Storage: 256GB, 512GB solid-state drive (SSD)
- Operating System: Windows 10 Home
- Display: 13-inch screen with IPS display and (2880 x 1920) resolutions

Microsoft Surface Pro X is a modern gadget that offers a fantastic experience with Windows 10 Home. If you are looking for a laptop that works perfectly with Microsoft Office, then the Surface series is an ideal solution for you. Microsoft added an ultra-powerful SQ 2 ARM chip with SQ2 Adreno 690 GPU. They give you an incredible display with a dazzling 13-inch touchscreen and UHD (2880 x 1920) resolution.

With a sleek and slim design in Matte Black color, Surface Pro X gives you an elegant look perfect for office use. You can also quickly transform Surface Pro X from a laptop into a tablet to help you create presentations on the go.
