

Safe, easy, anytime access to all of your medical information, available online using almost any device!

Healthlynked lets you manage your appointments, send and receive messages with your doctors, get test results faster, and much more!

## Convenient Scheduling

Schedule your medical appointments with ease online through your secure HealthLynked profile. Choose the time and facility that is best for you and works within your schedule. You can also view the details of past appointments to better remember what worked best.

## Easy, Secure Access to Your Medical Records

Have access to your medical records anytime, from anywhere. Easily share or transfer your records between over 800k providers without fees or having to pick them up in person. Never worry about having your important medical information with you while traveling. All your medical records are easily accessible by local doctors and hospitals via your HealthLynked profile.

## Your Family's Records, All In One Place

HealthLynked lets you connect your children's, spouse's, and parent's medical records under one secure, safe account. No matter the circumstance, you will be more prepared by having everyone's patient history accessible from your phone, tablet, or computer.

## Safe and Secure Access. Anytime, Anywhere

### **Control Your Own Medical Information and Appointments.**

You can help keep your family healthy with convenient scheduling, meaning you'll never have to miss an appointment again. You will gain easy access to test results and messages from your doctor. Best of all, being in control of your information provides peace of mind. HealthLynked helps you protect your family by keeping all critical medical information secure while still being easily accessible during emergencies.
