Why Take Defensive Driving

No matter how efficient you are as a driver, sometimes you can't control what happens on the road. Safety hazards such as roadblocks, severe weather, and aggressive drivers can significantly increase the risk. You're going to need to be well prepared to avoid these dangers better.

Our Defensive Driving Course can help you learn about Florida traffic safety laws and road emergency handling skills. Defensive driving courses can help you overcome the various hazards you encounter while driving and boost your confidence while on the road.

Get Your Ticket Dismissed With Our Port St. Lucie Traffic School

Getting a traffic ticket is a bad experience all around. Not only can it damage your driving record, but it can also lead to suspension of your license. In some instances, after you get a traffic ticket, you may receive a court order to attend a driving course.

To avoid risking losing your driving privileges, we recommend taking part in our Basic Driver Improvement (BDI) course. This course can help reduce the severity of your citation and any associated fines. To take part in the course, you must first ask the court for permission or take a defensive driving course online. You can also process your request in-person or by writing on the backside of your citation.

Once you get permission from the court, you can enroll in DriveSafeToday's online defensive driving course. You must complete the course within the period allowed by the court, usually

within 90 days. We will also inform the Florida DHSMV about your course details and send them a certificate of completion once finished.

Qualify for an Insurance Discount with Port St. Lucie Traffic School

DriveSafeToday's online Basic Driver Improvement course can help lower the fines from traffic tickets, and help reduce your insurance premiums. Most insurance companies in the state highly recommend our online defensive driving courses and offer up to 10% discount on your monthly insurance payment for completing them.

The majority of drivers between the ages of 18 to 55 are eligible to receive insurance discounts and point reductions for completing BDI courses. Contact your provider to determine if you qualify for a discount on your premiums after completing a driving safety course. If eligible, you can sign up and complete the course online. You'll then receive a certificate of completion you can send to your insurance provider to apply the discount.
