WHY HIVE

Reach every employee in the best quality possible

With Hive, you can reliably deliver impactful video communication to your entire workforce—whether they are at the office, working from home or halfway across the world. The high quality and a consistent bitrate ensure that viewers get the best possible experience and stay engaged the whole time.

Explore The Hive Video Experience Platform

Impact a broader enterprise audience than ever before using our three core products.

→ [Learn more about the Platform](#)

Analytics

Get a holistic understanding of technical performance, Quality of Experience, and viewer engagement of your video events individually and over time, and determine exactly how to maximize reach and quality for both live and on-demand video.

→ [Explore Analytics](#)

Operations

Ensure every live video stream is a success with pre-event silent testing, real-time alerts, and detailed performance monitoring.

→ [Explore Operations](#)

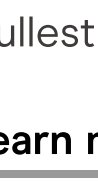

Optimization

Deliver a world-class video streaming experience to employees globally with intelligent P2P distribution, enterprise security, and multi-platform support.

→ [Explore Distribution](#)

Seamless integration with your existing technology

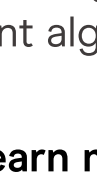

Hive is designed for the modern enterprise and integrates easily with most major Video Communication Platforms. Set up is quick and friction-free—no added hardware.

Seamless Integration

Use your preferred enterprise Video Communication Platforms to their fullest potential.
