

Scene	Visual	VO
01	<p>Overall style is simplified flat design representations of workspaces and the UI of everything that's shown.</p> <p>Most visuals are presented as within the same screen framing to allude to the seamless way these datums are transferred.</p>	<p>Music is light but not too happy. Voiceover is optimistic because we saving you hella time, yo.</p>
02		<p>Building your firm's financial models from disparate sources is a pain.</p> <p>And if your models reflect incomplete data, using them to help make important decisions is risky.</p>
03		<p>With PitchBook's Excel Plugin, it takes one click to seamlessly pump the PitchBook data you trust into your Excel models.</p>
04		<p>Utilize our dynamic prebuilt templates or use your firm's existing frameworks to create customizable, presentation-ready financial models in a snap.</p>
05		<p>Our calculation transparency allows you to dig deeper into the data as you analyze, visualize and synthesize your research in the environment where you're most comfortable.</p>
06		<p>With PitchBook's Excel Plugin, you can bridge discovery and analysis in an instant and be more confident than ever in the accuracy of your model's underlying data.</p>

07

And that's just one aspect of PitchBook's offerings. Our entire suite of tools and products is geared at helping you work more effectively and efficiently in the capital markets' evolving landscape.
