Which statement best describes you?

- I mostly visit the doctor for preventive care like immunizations and yearly checkups. Outside of that, I don't visit the doctor too much.
- I have a condition like diabetes or high blood pressure. I visit the doctor on a set schedule.
- I see a specialist to help manage my health. Or, I've been hospitalized in the last year. My doctor and I talk regularly.

### Get support from experts

With HealthPartners, you get a support team that's with you every step of the way. That means you get direct access to your Member Services Representative when you need help – all the time.

# Plan preferences

2 of 3

Which statement best describes you?

- I'm comfortable paying a higher monthly premium to have lower costs when getting care.
- I'd rather pay a lower monthly premium and more for care when I need it.

## What you pay

Plans with **higher monthly premiums** mean lower out-of-pocket costs. So, you pay more upfront each month, but pay less when you visit the doctor or refill medicines.

Plans with **lower monthly premiums** are the opposite: You pay less each month, but pay more out of pocket each time you go to the doctor.

Which perks interest you the most?

Check all that apply:

- Gym membership for no extra cost at participating locations
- Health insurance while I travel in the U.S. for up to nine months each year
- Preventive care covered at 100 percent, including one dental exam and cleaning each year
- Unlimited access to virtuwel, a 24/7 online clinic (North Dakota, Minnesota and Wisconsin only)

**Travel safely. You're covered.**

Plan to travel outside Iowa or Illinois for more than a month? No problem. As long as you travel in the U.S. for less than nine consecutive months, you can use your plan's in-network benefits. You have emergency benefits when you travel internationally too.
