

MOEN
Welcome to the Moen Smart Water Network
 The power of water is in your hands with your new Smart Leak Detector.

Your Smart Leak Detector will ship to you soon!
 Once your device arrives, you'll be able to install it in just a few minutes and have peace of mind that you'll receive alerts when water is where it shouldn't be.

Download the App Today

Step 1: Download the free Moen Smart Water Network App from the App Store or Google Play!

Step 2: Create an account or log into an existing account.

Step 3: Once your device arrives, follow the steps in the app to pair it to your Wi-Fi network.

Monitor for Moisture Anywhere
 We recommend placing your detector anywhere you're worried about a leak, like in your basement, laundry room, bathroom or garage.

Reach Small Spaces
 Use the remote sensing disc to sense moisture in tight spaces and hard-to-reach areas, like under your sink, behind a toilet or beneath large appliances.

MOEN
Customize Your Leak Protection
 Ensure you're getting the best experience possible by customizing your Smart Leak Detector settings in the Moen Smart Water Network App.

Personalize Your Notification Settings
 If the Smart Leak Detector senses water, excess temperature or high humidity, it will alert you via the app, text, email or a phone call.

- Open the app and tap the Leak Detector in the device section.
- Select Settings and tap Notifications.
- Edit your notification preferences accordingly.

Customizable Detection
 Customize how sensitive your device is by adjusting your detection settings for moisture, humidity, temperature and battery levels in the app.

- Open the app and tap the Leak Detector in the device section.
- Select Settings and tap Custom Alert Settings.
- Customize your detection preferences accordingly.

Battery Powered
 Your Smart Leak Detector includes a battery which will last up to two years, and you'll receive a reminder in the app when it's time to replace it.

Did you know?
 You can pair the Smart Leak Detector with the Flo Smart Water Monitor and Shutoff. When the detector senses a leak, it can automatically trigger the shut-off feature to protect your home from water damage.
