Listen up, the future of power masking is here and it fits in the palm of your hand. Can't get to a facialist? This is the next best at-home option. Enter the Foreo UFO 2, which uses superfast Thermo-Therapy heating technology at 45°C to soften skin, followed by Cryo-Therapy that cools skin back down, whilst lifting and firming. Added full spectrum LED lights (8 colours to be precise), target specific skincare concerns and unlock the maximum potential of the UFO Power Activated Masks when used together with the device. Not to mention that 10,000 T-Sonic™ pulsations per minute help active ingredients absorb deeper into the skin, whilst diffusing facial muscle tension and reducing puffiness.
