

HOW Can SMART HOME Assist You In COVID-19 OUTBREAK?

It's no secret that Coronavirus outbreak is pulling societies into unfamiliar and unprecedented territory. As the world around us changes each day, it's nice to know that a familiar product like **Amazon Alexa** can help us guide through the uncertainty with informational and relied resources, safety tips, and productivity and wellness suggestions. Smart home services are crucial in this time to make our lives easier.

Amazon Alexa features are integrated with some of the best home security devices. They can provide your family with beneficial security updates and much needed notifications during this critical time.

Information & Relief Resources

During the coronavirus, important updates from various new outlets are coming at us all the time. The rate can be so fast that it almost becomes impossible to keep up with the virus. Not only on a global scale but also within your local community. Find the local information you're looking for with Amazon Alexa's help. Simply ask questions like "Alexa, give me an update on COVID-19." In this way, Alexa can search up the internet for important updates and would let you know.

Also, you can stay updated about local store hours and closures. You can even make donations to those impacted by COVID-19. Simply say "Alexa make a donation to the COVID-19 response fund". Your donation would be made in an instant. Alexa also takes the responsibility to keep you informed about your kids' school syllabus during this pandemic. This can be possible when you pair specific applications like Blackboard or Canvas to your smart speaker.

Safety Tips

Search up for useful safety tips from Amazon Alexa that can help you protect your family and home. The smart speaker can help you make protective gear. Say "Alexa, how do I make a face mask?" In this way Amazon will let you know the procedure of making a protective mask in detail, without any hassle.

The Amazon Alexa can inspect your risk level for COVID-19. It can also provide you with protocols to prevent it. "Alexa what do I do when I have COVID 19?" Amazon Alexa will enlist the steps and protocol on how to deal with the disease. It can also give you helpful cleaning tips. The Amazon Alexa gives you tips on social distancing and gives you suggestions for staying occupied. It even help you with your hand-washing.

Productivity & Wellness

Staying at home doesn't mean that you have to compromise on your productivity and wellness. Stay on top of your overall wellness with Amazon Alexa's "Stay at home and work from home" routine. These unique routines provide you with fun facts at the start of your day. It notifies you when it's time to have lunch and when you need to stretch. It alerts you when it's time to get up and stretch.

Alexa also allows you to stay connected with friends and family with just your voice. "Alexa call grandpa", and it will make a call to your grandpa in an instant. These are just few of the ways Alexa can help keep you aware or help you find a needed means of distraction during this time.
