### OCEANFRONT OASIS

When entering 114 S. Nashville Ave., in Ventnor, N.J., you are immediately greeted by a remarkable two-story grand entrance featuring a blue-and-gold stained-glass skylight and chandelier. Walk further into the home to find seven beds, eight baths, a blue Bahia granite kitchen and a large office. In the master bedroom, open the Nano doors—a completely collapsible glass wall—to get unobstructed ocean views from the bed. “The wall of expansive glass doors folds back like an accordion, allowing the beach and ocean to feel like part of the house,” says listing agent Paula Hartman.

#### Location, Location

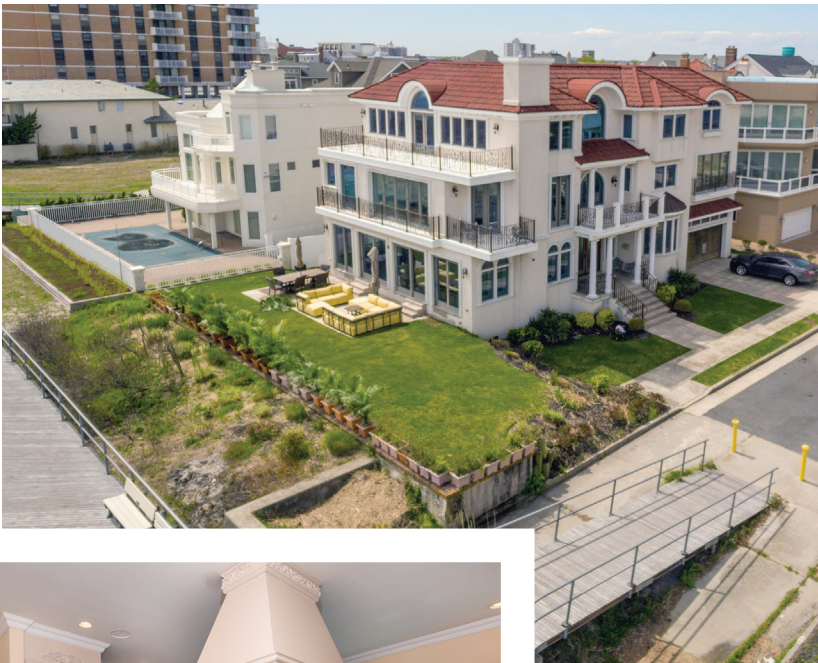

Whether you relax on the beachfront patio or one of the multiple oceanfront decks, the stunning seascape can’t be beat. And what’s better? “Ventnor is a fabulous neighborhood with very high elevations,” says Hartman, “so the homeowners there don’t have to worry about storm damage like others do.”
