ARCHITECTURE CAN

TRANSFORM THE WORLD.

BE PART OF

THE TRANSFORMATION.

Dear «FirstName»,

How will you contribute to the future of architectural design? Are you fascinated with the world’s environmental and infrastructural challenges? At **NewSchool of Architecture and Design (NSAD)**, our programs are designed to help you become a creative, capable problem-solver. You will **gain the education and credentials you’ll need to begin your career as a responsible architect.**

NSAD’s **Bachelor of Arts in Architecture** and **Bachelor of Architecture** programs provide an understanding of the basics of design from a technical and aesthetic perspective. If you know you want to be in the design field but are not sure about pursuing licensure, the B.A. in Architecture gives you a solid foundation that **provides several avenues after graduation, including finding employment or pursuing graduate education leading to licensure.** If you are ready to become a licensed architect, the Bachelor of Architecture five-year program, including a final year of thesis study, will prepare you to obtain your licensure and **pursue your career with an architecture or design firm.**

Design-minded students choose NSAD for a variety of reasons:

- **Quality programs.** Our programs are built on a solid ethical foundation and promote sustainability, accessibility, and social relevance. We nurture our students’ artistic passion yet challenge them, demanding professional excellence. NSAD’s professional programs in architecture are accredited by the National Architectural Accrediting Board (NAAB).\*
- **Inspiring setting.** We’re located on the edge of San Diego’s East Village near the historic Gaslamp Quarter in the middle of the art and design district. The city is a living classroom for NSAD students, giving them opportunities to engage with local architects and designers.
- **Faculty practitioners.** Our accomplished faculty members are skilled practitioners in their disciplines. They bring real-world experience into the classroom, and they are committed to helping you gain the skills you need to thrive in an ever-changing profession.
- **Student-centric learning environment.** We strive to develop our students’ confidence and skills in a positive learning environment. Our classes provide individual attention while encouraging spirited collaboration among students and faculty.

«FirstName», to learn more about NSAD, complete and return the enclosed reply card, **call us at «800.000.0000», or visit us online at «www.url.com».** *We look forward to hearing from you.*

Best,

Leonard Zegarski  
Chair of the Undergraduate Architecture Program  
NewSchool of Architecture and Design

Find information on costs, occupation types, completion rates, and median loan debt for these programs at [www.newschoollarch.edu/programdata](http://www.newschoollarch.edu/programdata).

NewSchool of Architecture and Design is accredited by the Accrediting Council for Independent Colleges and Schools (ACICS) to award bachelor’s and master’s degrees. In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure.

The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards. Doctor of Architecture and Master of Architecture degree programs may consist of a preprofessional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the preprofessional degree is not, by itself, recognized as an accredited degree. NewSchool of Architecture and Design offers the following NAAB-accredited degree programs: B. Arch (235 quarter undergraduate credits), M. Arch (pre-professional degree + 90 quarter credits), M. Arch (non-pre-professional degree + 135 quarter credits), M. Arch (license + preprofessional degree + 45 quarter credits). Next accreditation visit for all programs: 2016.
