NewSchool of Architecture and Design is accredited by the Accrediting Council for Independent Colleges and Schools (ACICS) to award bachelor's and master's degrees. In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure. The National Architectural Accrediting Board (NAAB), which is the sole agency authorized to accredit U.S. professional degree programs in architecture, recognizes three types of degrees: the Bachelor of Architecture, the Master of Architecture, and the Doctor of Architecture. A program may be granted a 6-year, 3-year, or 2-year term of accreditation, depending on the extent of its conformance with established educational standards. Doctor of Architecture and Master of Architecture degree programs may consist of a pre-professional undergraduate degree and a professional graduate degree that, when earned sequentially, constitute an accredited professional education. However, the pre-professional degree is not, by itself, recognized as an accredited degree. NewSchool of Architecture and Design offers the following NAAB-accredited degree programs: B. Arch (235 quarter undergraduate credits), M. Arch (pre-professional degree + 90 quarter credits), M. Arch (non-pre-professional degree + 135 quarter credits), M. Arch (license + pre-professional degree + 45 quarter credits). Next accreditation visit for all programs: 2016.
