I am not much of a reviewer but I have to write a review for "AW Advanced Aesthetic Training" for how exceptional Adriana and the "micro-needling" online course is. I have experience in working for a beauty institute, and I have to say that I applaud AW Advanced Aesthetic for how organized, detailed, and consistent the customer service has been throughout my experience taking the online course. The course was full of detailed information, demonstrations, and videos. After the course, we went through all the questions that I wanted further information in and she took her time in making sure I understood everything. I saved money for this course and it was very important for me to choose a place to invest in that was great (this took me a lot of research) and I'm so happy that I invested in this course with AW Advanced Aesthetic training. Adriana truly is an expert in her craft.

I took the dermaplaning course at AW Advanced Aesthetic Training and am so happy with the experience. The facility is beautiful and so is the entire staff. Adriana is so inspiring and knowledgeable. Can't wait to start offering this amazing service to my clients. I will definitely be back for a different class to continue my education in the future. Thank you!

Just took the dermaplaning class!! Adriana is so knowledgeable and such a great teacher! I love that we got hands on training and practiced on models... You also leave certified and you get a kit with blades, scalpel, and sharps container.. I feel so confident now and have all the skills and training I need to do this..

Hands down the best training by far! I'm so glad I chose the school because the staff genuinely cares about your education and your clients. They went over and beyond to show us exactly what we need to be successful in our business. The products are absolutely amazing. I'm so happy because they allowed me to wash my face and try it on my skin. I truly recommend their skin care products. And I am so excited to bring it into my business. Thank you AW!!!!
