THE PERFECT GIFT

Ideal for the nostalgic traveler, and travel-size friendly!

THE WHY:

Hi! I'm Katherine, a fellow traveler. Post pandemic I've had a sense of nostalgia and constant homesickness for all the countries I've wandered. My souvenirs made me feel even more depressed and cluttered. After researching for a solution, I learned that the sense of smell is closely linked with memory. That is why I decided to create natural, vegan, and cruelty-free essential oils for the traveling soul. I even went a step further and used proprietary blends of herbs, flowers, and botanicals. Ever since using Travel Aromas, I've felt more enlightened and hopeful about the future of travel. And I hope it does the same for you.

Cheers to travel,

Katherine

“

Since the pandemic, I've found myself daydreaming all day long about countries that left a mark on me, specifically Brazil. I ordered the Brazilian Samba, and from the moment I put it in my diffuser, I felt like I was back in Brazil. It's crazy how these scents can take you back to a place and time! Thank you, Travel Aromas.

I had plans to move to Japan during the cherry blossom season in April of 2020. I was so disappointed when my plans fell through due to the pandemic. I purchased the Japanese Spring oil and was SO glad I did. I use it every time I feel sad about not going to Japan, and it instantly lifts my spirits. Travel Aromas has given me hope that I'll be there someday!

“

Morocco is where my husband and I went to renew our vows. We had visited many times while we were dating, and it holds a special place in both our hearts. I purchased the Moroccan Souq and surprised him with it on our anniversary night. It was the perfect gift and we've continued to order it every time we run out!
