

Interact *Intelligently* with the **Mobile Market**

OpenGrid empowers intelligent interaction with the wireless Internet. Whether you're in the business of messaging, advertising, providing content or enabling e-commerce, OpenGrid's premier wireless Internet solutions can complement any aspect of your business and extend your reach to mobile customers everywhere.

OpenGrid intelligently enables you to:

- Extend your reach to wireless subscribers with contextual information
- Easily expand your current offerings
- Create one-to-one relationships with customers
- Shorten your time to market
- Access key wireless market knowledge and new technology trends

OpenGrid can bring your business into the wireless Internet quickly and seamlessly while you focus on your expertise.
