

Why Choose Tandem?

Tandem Invoice Finance is committed to building long term relationships and offering products designed to support your cashflow needs and the way you run your business.

We feel that a customer-orientated focus on products and service levels is the only way we should approach business and these ethics are the cornerstone of our business principles.

Single Invoice Discounting is a unique product and the maxim of 'Single Invoice for a Single Fee and No Commitment to Return' means we have to offer exceptional service levels or our customers simply will not return to us in the future. The quality of our service is proven by the statistic that 75% of first time customers have returned to us whenever their cashflow requirements need a boost.
