

DEAR 1.618 CLIENTS

As the whirlwind of holidays approaches, we want to thank you for your valued support.

Should you need any assistance or have any queries, our merry team is always ready to lend a hand. We also compiled a few tips to keep you safe over the holidays.

HOLIDAY SAFETY TIPS

- As the festive season approaches, make sure you prepare adequately for your holiday travels. Take your car for an inspection and make sure that your tyres, spare tyre, brakes, lights, and especially the AC are all in working order.
- Make sure your windscreen wipers are working, your windows are clean, and the washer bottle is topped up.
- Top up all your fluids; including oil, anti-freeze, and water. 1.618 Short Term Solutions offers Comprehensive Car Insurance with extra benefits such as roadside assistance.
- If your car has a tracking device, contact your service provider to run a test to ensure it is in working order.
- If you have security cameras on your property, make sure they are positioned in-and-outside of your home to get a clear view.
- Unplug all unnecessary devices. Not only is this protection from power surges, especially during these dark times in South Africa, but it's eco-friendly as well. Power surges can lead to fires, home insurance and prevention is key!
- Leave your highly valuable jewellery and other items you're not taking with you on holiday in a safe place, such as a safe at home. It's also a good idea to make sure they're insured.
- If you wear or carry any highly valuable items with you, keep an eye out for suspicious characters, and hold on tightly to your valuables. 1.618 Short Term Solutions also offers Portable Possessions Insurance for peace of mind.
- Make sure you lock your car manually when parking or driving off to avoid hijacking.
- If you are driving outside of South Africa, make sure you have cross border letters.
- Notify your Security Company that you are away on holiday, especially if your alarm is tripped.
- Ask a neighbour or a friend to keep an eye on your property and to collect your post.

1.618 Short Term Solutions hope these tips help! Remember, if you're driving far, take a break every two hours to avoid fatigue. Be safe and enjoy the holidays!

We wish you all the best this holiday season and look forward to another exceptional year with you!
