

## Living Well in Houston

*A Houston tradition for interior design,  
fine home furnishings, gifts, lighting and more...*

# SAVANNAH HOUSE

Custom textiles, contemporary and antique furniture, mirrors, framed art, tabletop accessories, draperies, lighting and more... with its incredible array of unique home furnishings and industry-leading design expertise, Savannah House has been a "quiet Houston tradition" for builders, architects and homeowners alike over the past 18 years.

Now, the tradition continues as Savannah House moves to a brand new location in Houston's popular Memorial Park neighborhood. "Whether it's a fresh home accent, a small hostess gift or a new piece of custom furniture built especially for you, Savannah House is more than just a store," says owner Kathryn Edwards. "It's a lifestyle boutique along with a full service Design Studio."

"We show design from every aspect to give our clients a complete resource," Kathryn adds. "What's more, because of the strengths we have in planning and construction, we're also able to join other industry professionals and seamlessly collaborate along each step of the design process."

It's a savvy combination of talent and know-how that can only result from decades of experience. Consequently, it's no surprise that Kathryn spent her childhood on residential construction sites alongside her father and then followed her passion to the University of Texas, where she earned a degree in Interior Design.

"I first opened Savannah House with a concentration on lighting and lamp repair, areas of expertise for my family, but we introduced furnishings and designs almost immediately," Kathryn remembers. "Being able to provide such a full continuum of products and services — for everything from working on the initial blueprints and designing custom cabinetry to selecting the right textiles and choosing that one last piece of signature décor — that's what sets us apart."
