

BrandEra's Services

Content By: Salma Omar

1 Branding

For some, it's visual. For others, it's purely strategic. For all, it's inescapable.

A brand is a promise. That promise is promoted and upheld through branding. Everything else is merely a distraction.

Because your brand is so vital to your company, it must be flawless. No company is too small for a high-quality brand, and at BrandEra , we make sure you get noticed.

We evaluate every interaction and touch point you have with customers and how they affect your brand's perspective.

Consumers' perceptions of brands eventually shape them.

What you do, what you say, what you sell, what you believe, how you look, how you act, what you promise, and what you deliver all contribute to the creation of a brand.

We believe that creating a distinct and appealing brand is critical to business success. We begin with a conversation to get to know you and your brand's goals. We then grab our paintbrushes and canvases and begin creating your brand!

BrandEra's mission is to create a unique and interesting brand. So, whether you're a start-up looking to develop an entirely new brand or an established company looking to refresh your existing brand, we're here to help.

2 Photography

High-quality photography is essential for capturing and engaging the attention of your audience.

BrandEra's photography services tell exceptional stories with photos that are styled, lit, and edited for maximum effect, whether you need to bring life to your website, social media marketing, or advertising.

We understand lighting, composition, set design, and the complexities of photo editing to create stunning photos that speak a thousand words. Our main goal is for our photos to brilliantly showcase your products, and that our unique, high-quality images feel authentic and honest to your brand.

3 Printing

Creating great content for your new business campaign is pointless unless it is supported by digital or printing!

In fact, the quality of printed materials such as brochures, posters, and banners reflect the quality of your company in the minds of potential customers.

Print marketing has the ability to do great things for your company, from increasing brand awareness to expanding revenue. Printing, in our opinion, is a trick that many people are unaware of.

At BrandEra; we believe it is one of the best ways to help you quickly attract new customers and encourage existing customers to use your products/services again as it's easily adaptable to a wide variety of marketing purposes.

We'll help you promote your business through printed materials like banners, brochures and posters and much more.

4 Packaging

Packaging is an important component of product branding and marketing. A unique packaging can increase the attractiveness of a product and thus influence the willingness to buy it.

We at BrandEra, believe packaging is just as important as the product. Its purpose is to stand out from the shelf or website, increase sales, provide relevant product information, and increase interest.

Two-thirds of people say packaging influences their purchasing decisions.

BrandEra believes a product's packaging can also tell a complete story about your brand. Our team will make sure to deliver your company's values and the numerous benefits that the product provides to the consumer.

5 Digital Marketing

The power of social media is admirable because it allows you to reach a large number of people within seconds of posting an ad, lowering your costs and ensuring that your ads reach your target audience through these social media advertisements.

Digital marketing is a company's best opportunity to stand out and be heard, bringing its brand to the doorsteps of people who need the product or service and those who want to learn more about it.

More people are exposed to a brand's story thanks to digital marketing. It's all about telling a one-of-a-kind story to the world.

BrandEra collaborates with you to develop customized digital marketing services and a strategy that meets the needs of your specific business. We become a member of your team, a partner who understands your market and your objectives.

Our team concerned with client relationships and outcomes. We always deliver on substance rather than empty promises.
