

**New This Week:**

## [Our Latest Blog | 3 Tips on How to Take Care of Hardwood Furniture](#)

[English](#) | [German](#)

*"We want our customers to become customers for life. We think our products are of such a high quality that, whenever you need anything further for your home, or any other space, you'll come back to us. The care we take with our products is second to none. But what use is a great product if you don't know how to properly take care of it afterwards. And that's what inspired this post: we want you to know how best to take care of your hardwood furniture. ."*

### **2 Product Updates:**

Our latest product on the site is our [MARTA Extendable Dining Table](#). Using 2 additional panels, that slot smoothly into place at each end, the dining table is perfect for social houses and big families.

To see how the panels fit into place, watch our video on the product page.

**Shop Now**

Also new for our MARTA range: We can now provide our Marta dining tables with a OSMO White Raw finish.

Osmo Oils are developed from natural oils and waxes to provide the most hardwearing and durable protection for wood furniture. Untreated wood in its original form has a light, pale character from its natural 'raw' appearance.

Please note!

Despite the current outbreak of Coronavirus, our workshop is still open and our staff are working while maintaining recommended guidelines of 2m distancing

We are not currently experiencing any delays to production

Thankyou, Liam and the whole team!
