READER: Nixa Launches New Curbside Trash Pickup Program

The trash service agreement between the City of Nixa and the Republic Services of the Ozarks was chosen to be modified by the City council on June 14. Nixa residents must now strictly place one large item considered to be trash at the curb, which will be picked up in a weekly duration. The city's previous "Citywide Clean-up Day" is now considered inactive.

Items such as bed frames, boxes, mattresses and grills are objects that will be included for these pickups. For information regarding unacceptable items and hazardous waste, please visit <https://www.nixa.com/departments/public-works/recycling-center>.
