Ommitrope comes ready mixed in a glass cartridge with a rubber stopper at one end. It is designed for use with the Ommitrope pen but users have been known to draw out the liquid with a insulin syringe. When Ommitrope is used with the Surepal pen, which it was designed for, then new needle tips should be used for each injection.

PR Omnitrope® (somatropin for injection) is a recombinant human growth hormone used to treat growth problems in both pediatric and adult patients. PR Omnitrope® was the first subsequent entry biologic (biosimilar) launched on the Canadian market. Biosimilars are follow-on versions of original biological molecules and unlike most generic copies of chemical medicines undergo their own safety ...
