Park Clinic COVID-19 Statement

IOWA PARK, Texas – News broke today regarding details of a case of COVID-19 in Wichita County that has been connected with Park Clinic. In order to provide the most transparent and up-to-date information to our patients and communities, we would like to provide an accurate timeline of events surrounding this case.

We want to ensure our patients, staff, and communities that their health and safety are always of the utmost importance and our top priority. Because of this, we have chosen to close Park Clinic and Iowa Park Clinic for two weeks for sanitation and to allow our Iowa Park staff a mandated 14-day quarantine. During this time, providers will continue to see patients via telehealth visits and telephones will remain operational.

Despite these closures, Iowa Park Pharmacy will remain open as they have had no direct patient contact.

We are diligently following all COVID-19 guidelines put in place by the CDC and Texas Health and Human Services regarding sanitation and health practices. We appreciate your understanding at this time.

Electra Hospital District wants to be viewed as the best in the communities it serves—whether through the delivery of healthcare needs, as an employer, or as a community member. Holding itself to the highest standards of quality in all it provides, Electra Hospital District encourages employees to be active at the community level and to strive to be examples of service not only to patients, but also to surrounding communities. When it comes to your healthcare needs, Electra Hospital District is your community resource for top-quality care. For more information, please visit www.electrahospital.com.
