Habe letzte Woche ein paar Tage länger pausiert, weil mein Körper irgendwie nach Regeneration geschrien hat und ich einfach richtig viel Schlaf gebraucht habe. Call it Deload or whatever. War auf jeden Fall gut, dass ich auf meine Körper gehört habe – bin wieder voller Energie. □

I have really good experience as well. Since I am from EU, Magnus is reliable and high quality source. 1. its pharma grade so I am safe 2. prices are OK (paid 50EUR for 2 Test P 10ml vial 100mg/ml) 3. it took 5 days to deliver (to Germany).

About Us. Magnus Diagnostics Laboratories, Inc. is a full-service independent clinical reference laboratory. Our testing practices and technology equips healthcare providers with the very latest in reporting and tracking capabilities that are currently available.

Posted @withregram • @dr\_ahmed\_mahsoub People of determination and ambition do not care about fatigue, do not consider excuses, and do not give in to boredom because they see their future with positive vision , and believe themselves and what they will be.

Why Choose Our Diagnostic Lab. Before expanding our test menu, we started out as a toxicology lab serving folks looking to recover from addiction and get off the streets as quickly as possible. During this time, we made a name for ourselves by being fast, responsive, and compassionate at every turn.
