

## WALK WITH ME

Walk with me, my love

My precious dream

Whose smile is sunlight

In the cool breeze.

Hold my hand, my love

Walking with you

This earthen road

Is a gilded path

Where scents of

Honeysuckle and Juniper

Spirit us beyond

The canopy

Of tall pecan trees.

Walk with me, my love

Beneath the warm glow

Of a Strawberry moon

listening to night songs

Of a thrush and heron

who sing only for us.

Let us skip together

Like schoolkids

before we turn the bend

Towards the homestead

The porch where your daddy  
Rocks, paces and scowls  
Behind puffs of smoke  
His pipe glowing like a poker.  
Remember this night  
How we were stars  
Shimmering above  
A slumbering world  
How the precious moment  
Made us feel beautiful  
That a walk in moonlight  
Made anything possible.
