

We feel your pain. Had enough?

You aspire to move forward,
but your tools and spaces hold you back.
Huddle spaces and working remotely sounded good, but the reality is filled with frustration.

We've all been there.

Blurry pictures of whiteboards buried in email.
No working markers, empty flip charts,
expensive interactive whiteboards nobody uses,
side-lined remote workers.

Why do we work this way?

There IS a better way - with Quilla™.

Pick up a pen and go

Writing that feels familiar like paper and pen. The power of digital allows your touch to interact with your content - erase, resize, copy, move. Always on, ready to use, and saves your content as you go. It's not complicated - there's no setup.

Move it with you

It's no longer anchored to a wall or chained to a wire. The thin and light eWriter weighs only 22 lbs. Lift it off the wall, put it on a stand and the battery allows you to go wireless to meet wherever you need to be. With 16 hrs of continuous battery life. Nothing compares.

Connect with others

It's true, working with others helps our ideas get stronger, yet our remote workforce is often side-lined to listen and watch. With Quilla™, share your workbook to connect with others for real-time content creation. Walk down the hallway and bring up your content to review and share, or brainstorm in the breakroom. Finally, what you need, when you need it, where you need it. Connections that matter.

Expand your space

Quilla helps you go beyond the boundaries that hold us back. Instantly cascade or span your content to multiple connected eWriters to support how you need to work. Zoom and move to go beyond page edges or turn to change your orientation. Unlimited workbooks and pages for unlimited creativity. Free your thoughts.

Creative Inspiration

Writing tools are powerful, they engage your mind. Eliminate distractions and take Quilla to your quiet space. Our personalized experience allows you to use your phone to identify yourself and gain immediate access to your library of content. Pick up where you left off, it's really that easy.

Don't waste your time

There is never enough time, so we've designed wall mounts that let you quickly lift the eWriter off the wall and put on a stand. The mounts manage the power and network connections for you to make taking them off and on simple and easy. Adjust the height to suit you with the touch of a finger. Spend your time on what counts.

Battery

42" Large and still runs for 16 hrs continuous on battery

Secure Content

Auto saves content in centrally managed library with secure encryption

Mobile log-in

Provides immediate personal access to your library

There is a BETTER way to do the EVERYDAY!

Feature	Technical Specification*
Name/Model	Quilla™ Connected eWriter
Display	42 inch high resolution reflective display
Storage	16 GB flash memory. Additional 64 GB available via USB flash
Battery	Up to 16 hours continuous battery life
Connectivity	Wireless LAN (802.11 a/b/g/n/ac) Near field communication (NFC)
Ports, slots, and peripherals	2 USB 2.0 connectors, RJ45 connector
Security	User authentication, encrypted communications
Touch Input	10 point multi-touch
Pen Input	Non-battery stylus
