

## COMMUNITY ACTION PLEDGE

We pledge to support the Clark County Substance Abuse Prevention, Treatment, and Support Coalition. To that end, we will use our positions of influence to educate the community about the scope of the substance abuse epidemic. We will advocate on behalf of addicts, their loved ones, and all affected community members to end fear and stigma, which impede the search for cures for addiction disorder. We will join the Coalition in working to liberate Clark County from the chains of addiction; the community's pain is our pain, and we pledge to work towards ending it.
