Dear *Business Leader*,

Research shows that substance abuse disorder impacts not only addicts, but the wellbeing of the businesses they work for. Addiction decreases the affected employee's productivity, causes unhealthy tension among the employees, and can increase the likelihood of serious workplace accidents. This is a fraction of the damage addiction inflicts on Clark County workplaces. The question is, how can we stop it?

The Clark County Substance Abuse, Treatment and Support Coalition, formed by community stakeholders, have labored to understand and address the problem for 3 years. The Coalition is hosting a meeting for prominent members of the business community, such as yourself, to present our findings, successes, and challenges in Clark County.

You are invited to join us on Wednesday, June 21st from 11:30 am to 1:30 pm at the Global STEM Academy. We will provide lunch, an educational presentation, updates on the Coalition's progress, and an explanation of the challenges that lie ahead. By joining our Community Action Pledge at the event, you can show your commitment to support the Coalition as it battles the impact of opioid and substance abuse on the good, hardworking individuals who form the Clark County business community.

Your support would mean a great deal both to the Coalition and to Clark County businesses; we would be honored if you joined us. However, if you cannot personally attend, we encourage you to send a representative to attend in your place. Please RSVP by June 14 via email to kristina.downing@expresspros.com or by calling 937-399-5323.

Kindest regards,

Kristina Downing and Wendy Doolittle
