Squat: dirtiest misgroove ever, funny thing is, I wanted it to move like an opener. Probably moved like between opener and second so I'm not mad. It honestly it was beyond easy, I just let my hips shoot and sunk it way below parallel because I am self conscious about depth from the front. Clearly from panel two im just paranoid.

Да, для снижения веса необходимо создать дефицит калорийности - и это стресс для организма. А ожирение или предожирение - это полезно, как думаете?

Вот то-то и оно Каждый день носить на себе риск для эндокринной системы, ЖКТ, сердца и сосудов... Или немного пострессовать, чтобы потом порхать бабочкой. Что лучше, как думаете?..
