Learn the business values that set DePetalz apart in the flower service industry :

Appreciation to Beauty

DePetalz regards flowers beyond a mere visual presentation, but also with constant care and appreciation to the natural beauty. All our creations pay respect to the balance and harmony for lasting use.

Elegance & Quality

The driving force to our success lies within our commitment to elegant quality products and designs. DePetalz presents flowers that translate to pride and class with high display values.

Commitment to Service

Customer service is the name of the game and it applies before, during, and after sales. With on-time delivery accuracy and thorough product knowledge, DePetalz moves forward as a customer-oriented company for the benefits of our clients.

The Founder

DePetalz is the work from the heart of one extraordinary lady. Owned and operated by Simran Rajesh Punjabi, each creation carries a personalized touch and heartfelt message that reflects her passion and dedication to flowers.

Flowers have always been the source of serenity and confidence to this Surabaya beauty. As a loving wife and mother of three, she took one Floriculture class back in 2006 and it was all she needed to launch a dedicated flower service, namely DePetalz.

DePetalz was born out of her love and curiosity for flowers. Simran has attended countless classes and trainings in mastering the art of flower specialist. Yet she never passes a chance to learn even more by joining present courses, particularly to understand new flower hybrids and design techniques.

As a result, DePetalz continues to blossom under her care and loving hands. Simran enjoys a personal level of service to her clients whom she regards as friends.

Inspired by the sweet flowers, Simran strives for DePetalz to flourish, spreading its fragrance and joy to everyone who loves it, just as much as she does.
