

LEE BAILEY
SHIPCHAIN CTO

19
APRIL

5:15 pm at Watt Center Auditorium

PUBLIC vs PRIVATE

B L O C K C H A I N

Blockchain technology is one of the fastest growing sectors in the tech space, and blockchain jobs are in high demand. Join us **April 19** for a talk by **ShipChain CTO Lee Bailey** on the differences between Public and Private blockchain technology. Learn about which one is the real deal, which is just hype, and why you should care.

Lee is a full-stack developer, blockchain consultant, and entrepreneur. He has experience architecting, securing, and deploying distributed processing systems, including analytics toolsets for high budget advertising agencies, smart contracts for a variety of decentralized applications, and a high-speed cryptocurrency trading platform. He is currently leading ShipChain's tech endeavors as the company's Chief Technology Officer.

About **ShipChain**: Shipping is complicated. It shouldn't have to be. Enter ShipChain, a disruptive technology company that utilizes blockchain technology to redefine the multi-trillion dollar transport and logistics industry. The company's main objective is to make transport and logistics more effective, secure, and transparent.

THIS IS SHIPCHAIN, THE FUTURE OF SHIPPING.
