

# Software Development

Welcome to 7skysolution! We're much more than a team of techies; we are your strategic partners. Using our exceptional quick-witted experience and a highly knowledgeable team, we do one thing only: Focus on meeting our customer's expectations of an innovative and digital experience.

## Software development services for start-ups

Our aim is to help young companies translate their disruptive ideas into market-ready software products.

7SkySolution is an expert in custom software development, mobile app development, as well as offshore resource augmentation.

## See Your Exact Idea Alive – and Selling

(insert any image)

You have an idea. We have the tech knowledge and skills to turn it into software – from initial design to implementation and adoption, keeping the releases **frequent** and **reliable**.

### Why 7SkySolution?

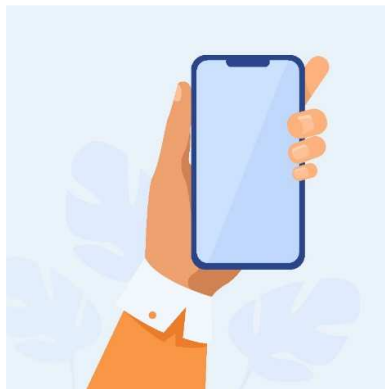

- Immediate project start.
- Major releases every 2-6 weeks, minor updates up to several times a day.
- Clean code and high-quality unit tests.
- Access to the latest frameworks and language versions, architecture designs, inventions and innovative techs (AI, machine learning, augmented reality, and more).
- Established Lean, Agile and DevOps culture.

## Intelligent Business Apps

(insert any image)

We craft robust and scalable business applications that meet the project needs and provide a captivating experience for the customers. We have successfully deployed customised applications many companies.

### Mobile Application Development

7Skysolution successfully creates mobile applications using AI and IOT for businesses across the globe. Our team loves to work on native as well as hybrid platforms. We are super dynamic when it comes to creating the style you imagine!

## Website Development

This is where we brag! We create responsive and astonishing websites fulfilling all of your specifications, within allocated time and budget. Our development team will get your product up and running perfectly in a short span of time with a hundred percent guarantee of it leaving an impact on your audience.

## Team amplification

(insert any image)

Team integration is a strategy that involves understanding your company's workflow, processes and culture. When we partner with you, we leverage our framework to match the work to the skill set of a team.

## We provide Hosting

(insert any image)
