I started taking antidepressants about 2 weeks ago. First i had headaches and i was nauseous. I also had my period again which wasn't supposed to happen at all. Yesterday it all went pretty bad. I got real sick because i took my medication later than normal. I had extreme cramps and diarea. I was awake this morning at 05:00. Bc of the medication i have way less appetite and my sleeping is not great. So i'm gonna call my doctor monday to talk to her about stopping with the medication cuz i have more side effects and that isn't helpfull for me.
