Just because your insurance denies your claim does not mean you have to take no for an answer. Our law firm will accept your case on appeal, including rejected roof claims for damage caused by water, fire, and wind.

Roof damage claims can be complex to file and challenging to get approved. Denial can happen due to named policy exclusions, roof manufacturing defects, and the age of your roof before the damage occurred.

We will stop at nothing to get coverage from your policy. Our lawyers know how to fight rejected claims and file effective appeals.
