What makes the hottest women so different...

SECOND SUBJECT:

How TV producer scores hot actresses

BODY:

Hey it's Brad,

Some of you may not know it, but I'm based out of LA and many of my personal coaching clients have a lot of money and power.

Some are even famous...

...But most of them don't have the first CLUE when it comes to women.

I was recently consulting a guy who's a producer in the television industry...

You'd know some of the big shows he's done, you might even know his name if I told but yunno, client confidentiality and all that.

Anyway, he was pretty frustrated. He has a block when it comes to the hottest women, the 9 and the 10's.

...And he is around these women ALL THE TIME.

It's like he trips himself up whenever he sets out to build attraction with the HOT actresses.

Now, the cute girl next door office assistant (whose about a 6 or a 7), he can fuck her anytime all day long...

...But no luck with the 9's and 10's.

I told him this:

There's a fundamental difference between 8, 9s and 10s and 1-7s. In fact, there are a few, but the big one you need to know about is actually pretty obvious when you think about it...

The hottest girls get hit on a lot more.

You're never going to find a hot girl stuck for choices, so you need to STAND OUT from the crowd.

This guy had heard about "negging" from The Game and seduction sites, which is supposedly a solution to the hottest girls.

For those of you who don't know what "negging" is, the idea is that by giving them a kind of backhanded-compliment or jocular insult, you lower their status and make them want to prove themselves to you.

But honestly, negging is widely misunderstood, frequently misapplied, and screwing it up just leaves you looking like a dick.

Let's be honest - even for guys who approach a lot, it's still intimidating. And knowing that you could not only get turned down, but actually piss the girl off is a real killer. And because of this...

The hottest girls often miss out on the highest value guys (YOU).

Which is a big shame, for everyone involved...

So, I'm going to give you the same suggestion I gave to my TV producer friend:

Learn how to read women. They unwittingly do and say things that show that lead to real actual SEX.

You can immediately gauge their interest and learn how to exploit it to your advantage.

All you need is this secret field guide that me and my top clients are using.

Enjoy, and get ready to have your mind blown.

Talk soon,

Brad P.

P.S. - When you KNOW she's down to fuck, it's a whole new ballgame. No more coming off like some desperate guy who's trying to meet a girl.

You're going to know what to do and say to make her think her dream just came true when she met you.

Sex on your schedule (and how to get it)

SECOND SUBJECT:

The power of NO

BODY:

Hey it's David,

Have you ever had a woman try to control the sex in a relationship?

Does she jump on you and want it now?

Well, before you get excited, hold on.

This is not necessarily a good thing.

When a woman tries to control the sex in the relationship, it means she doesn't respect you.

You are actually not much of a sexual threat in that case.

She doesn't think YOU have it in you to fulfill her sexually, so she is taking charge to get her needs met.

I just had a client ask me about this.

His name is Lee:

"Bought alot of your programs. Got in a relationship and I feel like my girl is trying to control the sex.

It is still early in the relationship and I want to shift this power play.

Can you please help? Wouldn't be best to have sex on my terms, not when she feels like it?

What do I do If she wants it just not do it!? I want to be in control and feel like a man."

My comments:

He's right to recognize that she's wearing the pants and he's going to have to shift the power to himself.

Remember this:

A Masterful-Lover has sex on his own schedule no one else's.

Lee needs to hold firm and simply tell her, "not tonight" when he's not in the mood.

That's it. Period.

Can you guys do that?

As Masterful-Lovers we're not needy for sex. We're not out to get sex. What we do is oblige a woman's need for really great sex.

The problem is this:

So many guys have a lack mentality and jump on them opportunity to fuck whenever their woman initiates, as if they'll never get laid again.

That's Nice Guy Behavior.

Sometimes, telling your woman "no" to sex is one of the most dominant things you can do.

She may be shocked at first, but she'll respect the hell out of you for it.

And that will just get her hornier.

What you need is a way to systematically get a woman feeling sexual on your schedule...

...a method to basically "hack" the pleasure centers in her brain to get her thinking about sex with you.

You'll have an incredible horny girlfriend and also a very submissive one, when she KNOWS you've got this handled.

My friend, a doctor, shocked the world a while back when he demonstrated a fast and easy method to do this exact thing...

Give women incredible pleasure,

David Shade

P.S. - I seriously want you to take a look at this demonstration, it's incredible.

Today, men need every advantage they can get to keep the edge in their relationships.
