If you're looking to save some money on Windows 10 Professional for back-to-school, [Whokeys.com](#) wants to help. Right now, the company is offering MakeUseOf readers a special discount on Windows 10 activation keys if they use the code **MAKE25** at checkout.

With this discount, you can grab a global activation license for only \$18. That's less than 10% of the retail cost! And with Microsoft's announcement that Windows 11 will be a free upgrade for all Windows 10 users, there is no time like the present to activate Windows 10.

## How Does Whokeys.com Work?

If you've ever been to Costco, you know that buying things in bulk saves you money. While that's true for pantry staples, it's also true for software. But, if unsold copies of software sit on store shelves, retailers need to offload those copies to make room for new products. Enter ESD resellers.

[Whokeys.com](#) is an ESD reseller that purchases copies of unsold software like Microsoft Windows 10 in bulk. By doing so, Whokeys gets a bulk discount and can sell these copies for a fraction of what they would cost retail.

The thing about software is that it doesn't usually expire. In other words, the Windows 10 activation key you bought five years ago still offers the same features and benefits of a discounted Windows activation key today. You still get access to updates, and you still get to use all of the software's features.
