

Coin Master : How to get more spins & Be Happy.

Playing coin master? Like it? Don't we all. (Don't answer, that's a rhetoric)

Coin Master, believe it or not, launched back in 2010, although it was not the same games we know today. After years of efforts put in by the Israeli makers of the game – Moon Active, them leaning towards the slot machine system turned out to be the turning-point for the game.

As of October 2019, Coin Master has amassed over 81 million downloads and still counting. It has been the top-grossing game in UK and Germany for a while, and is even more contagious than many viruses.

Let's get to the reason you came here already :-

How to get more spins?

Spins are the stuff needed for one to use the slot machines – these slot machines roll you coins, shields, attacks and even more spins.

Considering that spinning the slot-machine is one of the most interesting aspects of the game (F for those fallen comrades who fell in the rabbit hole of spinning), one thirsts for spins.

Method (a) – Forget the F, invite even more friends to fall into the hole with you!

Let's be honest, do you want friends who stop you from falling into the whole, or do you want those friends who push you into the hole and fall in themselves too!! (Another rhetoric')

- (i) So start by logging into your FaceBook account via the in-game option.
- (ii) Invite your FaceBook friends to play the game too, and they will inadvertently earn you rewards if they download, open and sign up in the game (with their Facebook account).
- (iii) You will earn 40 spins for every Facebook friend that jumps in with you. (Smile)

Actually don't forget the F, cuz the F in Facebook and the same F in Friends is gonna earn you those spins.

Ah. Another thing you can do is request spins from your friends. If you were able to successfully coerce your Facebook friend to play the game, you can request them for spins. However, you can only request one spin from one friend a day. You can do this with a 100 friends a day (says the guy who barely has.. uh nothing to see here)

Method (b) – E before F. Email Sign Up Option

Personally I hate receiving emails, especially from multinational corporations earning big bucks while I am just...

So..... the email sign up option is actually a great spin obtaining opportunity for normal people. If you sign up for this option, Coin Master will send you a link attached to an email from it each day. If you follow this link, Coin Master will open up with spins as a gift for you (like gnomes on Christmas).

Method (c) – C for Card Collection - Don't Ckip them

Noobs are the staple of professional gamers. They are the fodder for the experienced, the sacrifice for the apex predators, but don't worry we got you. We won't let you be a noob for long.

Many new players of the game – Coin Masters – tend to skip over collecting cards and dive into unlocking new villages before their collection is complete.

However, the thing to note is that although collecting cards might require a bit of an effort, the rewards (spins zuzuzu) are worth it. You get a hefty amount of spins in coin masters if you complete your card collections.

If you are wondering how to collect cards, then (yare yare daze) here's how you do it :- In coin masters, you obtain cards for your collection via chests. These chests you will find in raids, or you can purchase them from the Shop.

There are different sets, and for each set you require 9 cards. With each village you unlock, you will also unlock new collections to complete. Completing card collections requires effort (as I said before, you need 9 cards to complete an individual collection). You will need to open many chests to earn cards for each individual set, but remember – the rewards are good.

Method (d) Ads are fun, right?

No they are not actually. But if you don't want to pay, then annoyance coupled with a few shots of serotonin is what you're gonna get.

It might be the easiest way to earn Coin Master spins, but remember – Your Time is Valuable.

However, if you want do it, then click on the 'spin energy' button, and if there is the option for 'watch ads for spins', click on it.

This may not be unlimited resource, but you can still earn a good amount of spins.

Method (e) Daily Publisher links are easy

Ran out of those crazy spins and those shiny coins, did you?

Don't worry, those publishers have got you covered (because you are important to them – not in that good a sense but – yes you are).

Each day, the publishers post 3-5 links in-person which can be used if you run out of spins or coins.

These links are non-fraudulent, safe and legal.

Method (f) The final F is for Finale

Finally, this is the most easiest, apparent and yet, perhaps it maybe the hardest too.

Patience yields great results. In this case not that many though.

Each hour, you will receive 5 spins - wait for it - without putting in any effort.

Boom!!!

Huzzah!!!

To end a better, more peaceful note – I really hope that this article met your requirements and provided you the information in a fun and quirky way.

My final words would be :- Coin Master Spins – Them we need for wins.
