Single Serve

Gel Hand Sanitizer Packets
Convenient • Compact • Personal

WHAT WE DO

Santex Global provides branded and private label single-serve OTC gel hand sanitizer packets to North America and international markets. Perfect for wallets, purses, lunch boxes, gym bags, cars, and more, our single serve packets are designed for today's on-the-go consumer.

Hand sanitizing on the go.

Safe and easy to share with others.

Proven advanced formula now available in portable single-use packaging.

Quality Assurance

All facilities are third party audited and have robust quality assurance programs in place.

Full product traceability.

All facilities are FDA regulated.

Rigorous quality control testing, including seal integrity and burst strength testing on each production run.

Santex products are in compliance with all state and federal regulations.

MADE IN USA

PEACE OF MIND IN EVERY PACKET

Santex
Branded

Fully customized private
label design available

Ultimate Portability
Effective, safe, and deep moisturizing formula made in the US
Each packet contains 1.2mL – enough Santex advanced gel hand sanitizer to kill 99.99% of germs
Subtle, pleasant scent
Light, non-sticky hand feel
More cost effective than bottles and wipes
Precise dosage / less waste, less risk of cross contamination vs. bottles
Private label available

			
Marketing Value	✓ Each packet is customized with your company name and logo, creating millions of mobile individual advertisements for your company.	✗ More expensive and less portable for "on the go" consumers.	✗ Incompatible with markets in need of portable sanitizing solutions.
Convenience	✓ Highly convenient. Each packet is small enough to fit in your pocket, purse or wallet.	✗ Not convenient to carry or use while eating, traveling or on the go. Creates a contamination hazard to consumers through multiuse design.	✗ Possible contamination via common touch points going against social distancing and sanitizing best practices. Not practical for markets in need of mobile sanitizer solutions.
Market Opportunity	✓ Strong need in every industry - especially the airline, hospitality, medical, entertainment, rideshare, government and food service industries.	✗ Demand has evolved beyond conventional sanitizer bottle formats.	✗ Already existent, the market needs a single serve option.
Cost	✓ Most cost-effective way to maximize brand exposure while providing safe and convenient sanitizer for your "on the go" customers.	✗ Not cost effective as a consumer giveaway.	✗ Greater upfront cost, continuous maintenance and replacement costs. Incompatible with mobile sanitizer solutions.

Drug Facts	
Active Ingredient	Purpose
Ethyl Alcohol 70%	Antimicrobial
Uses: Hand sanitizer to help reduce bacteria on skin.	
Warnings: • Flammable • For external use only • Avoid eye contact. If in eyes flush with water • Stop use and ask a doctor if irritation or rash develops and lasts • Keep out of reach of children • If swallowed get medical help or call a Poison Control Center right away.
