### **Begin by Designing a Realistic Tax Strategy**

With states nationwide aggressively pursuing tax revenues, inattention to your multi-state, state and local tax compliance can work against you in the form of tax audits and additional unforeseen tax liabilities. Now may be the time to consult the State and Local Tax (SALT) specialists at Friedman LLP.

We can evaluate your tax posture – discover overpayments, bring your attention to taxes you may not be aware of or states where you should be filing. If necessary, we can enter into voluntary disclosure agreements on your behalf. Invite us in for a “no obligation” look.

### **Let Friedman's team make it right**

In today's market, companies with licensees are seeing their royalty fees erode. Is this due to market conditions or non-compliance? Now may be the time to consult the Forensic Accounting, Litigation Support and Valuation Services (FLVS) specialists at Friedman LLP.

We can review the licensing agreements and discover royalties that are not being collected. We can also further evaluate any potential loss to your brand. Don't let non-compliance be the reason you are losing money. Invite us in for a "no obligation" look.
