Greetings!

Step beneath New York City, into historic catacombs that until recently, have been closed off and forgotten. Unlock a lost era with unique access to the catacombs under The Basilica of Saint Patrick's Old Cathedral in Little Italy. Join us for a dramatic and exciting day, going underground to explore 200 years of history!

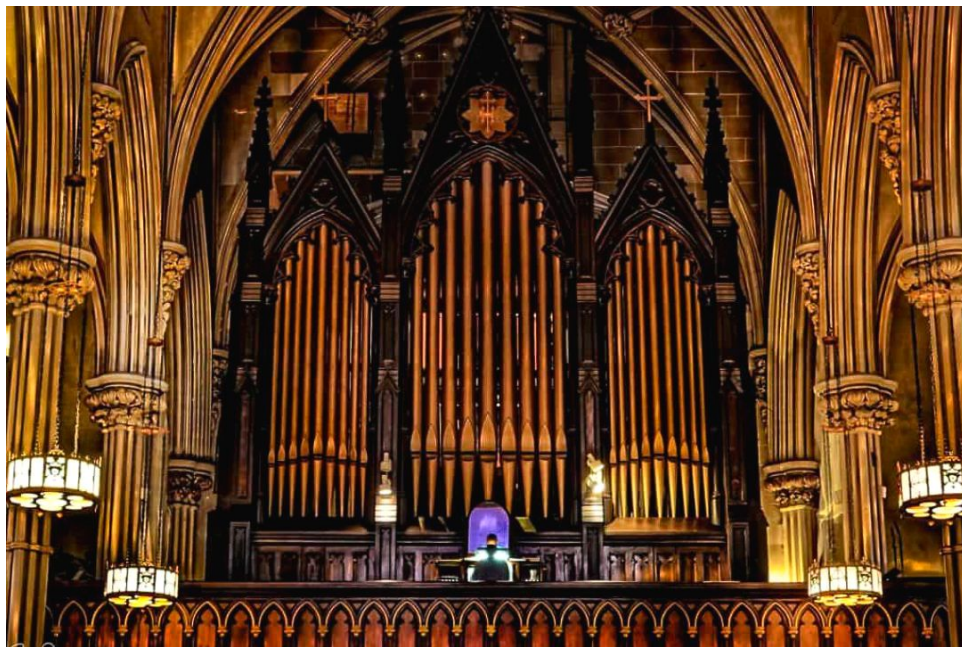

Experience the ancient catacombs as they once were, on a candlelight tour that will transport you back more than two centuries. Cross into another time as you're guided down the long crypt, with sealed vaults and untold stories.

The unique Catacombs by Candlelight encounter shines a light on the only active catacombs in the city!

On Mulberry Street downtown, Old St. Pat's is a proud city landmark. Be amazed by the incredible Gothic design, vaulted ceilings and stained glass windows on a guided tour. Visit the church's notable cemetery and magnificent Basilica, where the baptism scene from *The Godfather* movie was filmed!

Enter areas that are off-limits to the public, including an up-close look at the church's famous Henry Erban Organ, the largest enduring organ of its kind. With close to 2,500 pipes, the organ still sounds the way it did in the 1800s, when it was powered by hand.

For the complete, old-world New York experience, begin with an authentic, family-style lunch at The Original Vincent's in Little Italy.

This promises to be a highly unique day featuring what is literally one of the best kept secrets in Manhattan. Join us for the rare chance to see a hidden piece of New York City!

Join us for a guided tour of the Catacombs by Candlelight.
