

“Forget yourself
and become one
with nature!”

– Yayoi Kusama

BLOCKBUSTER EXHIBITION KUSAMA

Internationally Acclaimed Artist

Presented at The New York Botanical Garden

Special Exhibit with Timed Entry!

Greetings!

The biggest-selling female artist in the world, Yayoi Kusama, unveils a new exhibition for the first time in New York. Be one of the first to experience this highly anticipated event installed at the New York Botanical Garden. Yayoi Kusama is instantly recognizable in her bright-red wig and polka-dot ensembles. In recent years, her exhibitions have set the art world on fire, shattering museum records with her captivating installations.

Opening in May 2020, Kusama will unveil a new, massive exhibition at the New York Botanical Garden, the only stop for the show. Billed as “the first-ever large-scale exploration of the artist’s profound engagement with nature,” this is one of the hottest tickets in New York! Kusama’s shows routinely sell out, with visitors waiting in long lines for the chance to see—and take pictures with—her colorful works.

Marvel as her floral paintings come to life through a seasonal progression of violas, salvias, zinnias, chrysanthemums, and other colorful annuals, while her plant-inspired, polka-dotted sculptures are nestled among meadow grasses, bellflowers, water lilies, and more.

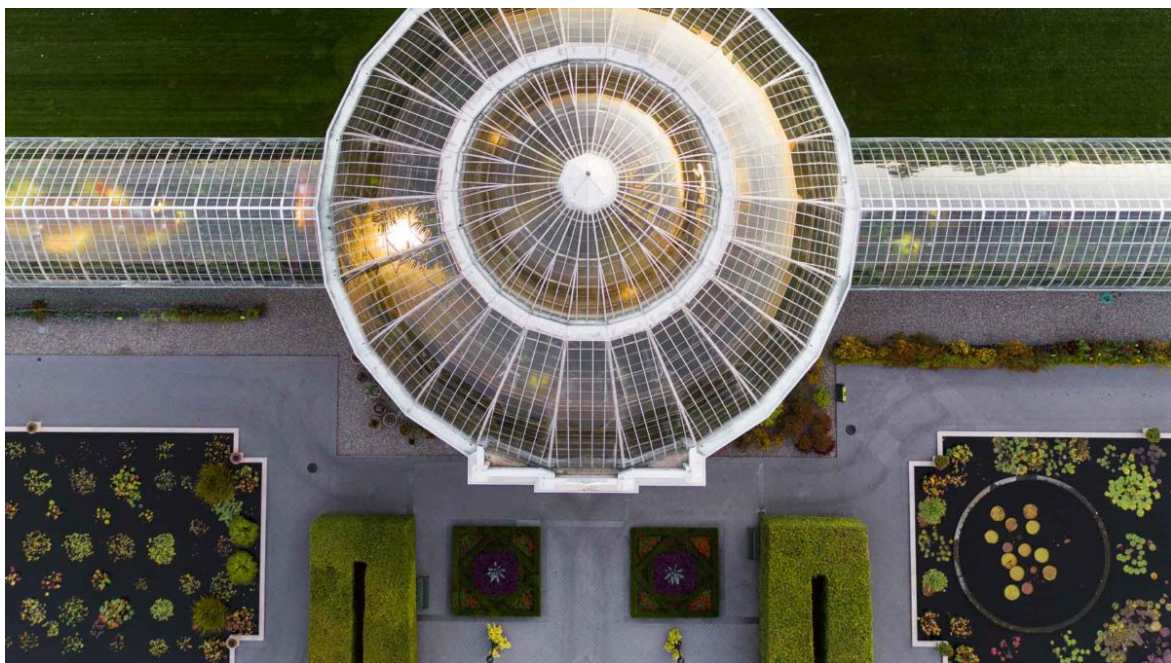

Kusama's newest sculptures Dancing Pumpkin (2020) and I Want to Fly to the Universe (2020) will make their debut in the NYBG landscape. A unique immersive installation, the show will feature the artist's first-ever participatory greenhouse, Flower Obsession (2020) where you will be invited to participate in her art by applying stickers on the surfaces of the building's interior.

Known for her use of mirrors, Kusama unveils her newest mirrored infinity mirrored room, Illusion Inside the Heart (2020). This outdoor installation will respond to changing light throughout the day, creating a new experience from every angle!

Through special arrangements, The Upper Class has secured special access with timed entry to exhibits that are not open for general admission: the Kusama Dot Obsession, the Flower Obsession and the transcendent Mirror Room, plus the many installations across the NYBG grounds. These timed entries are designed to reduce wait times and crowds at the most popular exhibits.

To add to your enjoyment, climb aboard the tram for a narrated tour of the gardens and eat lunch at NYBG's Pine Tree Cafe.

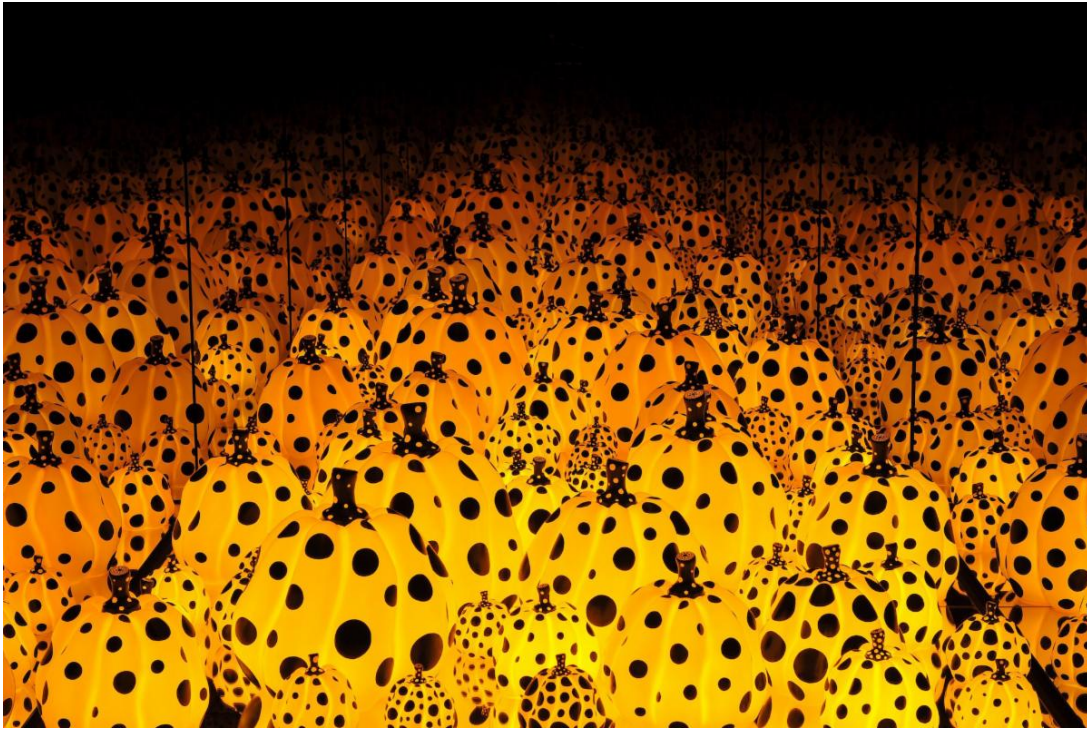

Join us to experience this thrilling, multi-sensory presentation in the first few weeks of its debut. The BBC has hailed this exhibit as one of "The Eight Must-See Exhibitions of 2020." We are thrilled to bring you this new trip to experience an artist at the height of her fame - don't miss this limited engagement!
