## Quality Assurance Intern

### LOCATION

Headquarters - Auburn Hills - Auburn Hills, MI 48326 US (Primary)

### RELOCATION REQUIRED

Yes

### EDUCATION

Bachelor's Degree

Is your idea of a perfect Friday night a bowl of popcorn and the latest software reviews? Do you see lines of code when you close your eyes at night? Do you reminisce about floppy discs and dial-up Internet with a fuzzy nostalgia? If any of these apply to you, read on...

The ideal QA Intern has drive, passion, and *grit*, along with a dedication to the growth of our technological platform. You know how to test and assess to ensure the release of highest-quality software. You have a passion for problem-solving: logging, tracking, and fixing bugs during pre-release testing, for instance. You love to collaborate, bouncing ideas with other QA testers, Business Analysts, Designers, and Developers. You have a strong attention to detail and a sense of curiosity: you endlessly strive for improvement and knowledge.
