# Opening Letters from Loved Ones with Wicks Forge

## Getting a Letter Never Get's Old

--I don't know about you, but this year has been tough.

Not being able to go home for the holidays means that we've had to find new ways to

connect and stay in touch with the people we love, especially when they're far away.

I know a letter opener might not seem groundbreaking-- it doesn't look like it fits in the age of GPS and push notifications-- but part of what I love about them is the thought behind each one.

I get to hear the stories you tell with every Letter Opener ordered. Some of them are stamped with the date of a graduation, or the combined initials of newlyweds. Some commemorate birthdays or anniversaries, or lost loved ones.

I also love that they add a special touch to a good old letter. I don't know about you, but getting a handwritten letter in the mail never gets old. There's something to be said about knowing that someone took the time to write you a note and drop it in the mailbox, don't you think?

I know that this year has been difficult and we're missing our loved ones, but sending holiday cards and thank you notes can be a great way to let friends and family know you're thinking about them and you care.

Wick's Forge is grateful that our letter openers can be a small part of staying in touch, making every letter and card a little more special.

- Nick and everyone at Wick's Forge
