The Bugaboos, British Columbia

REKINDLING THE DREAMS THAT RESIDE IN SO MANY OF US... to wake up in the crisp mountain air and be air-lifted to a glacier, ridge or flower-filled meadow in an alpine wonderland! Created in the 1970s by Arthur Tauck Jr. and pioneer alpinist and CMH founder, Hans Gmoser, heli-exploring takes travelers of all ages and abilities by helicopter to a remote lodge in British Columbia's Bugaboos Range. Once there, what may have seemed only a dream becomes an amazing reality – an opportunity to explore some of the most beautiful terrain imaginable led by expert guides, embracing all the magic and purity of an alpine experience tailored to your own interests and capabilities.

As I look back on my years in the travel business, one of my greatest pleasures has been seeing and hearing what our guests have to say about heli-exploring.
