ABOUT BIDI™ CARES

Bidi™ Cares is a program dedicated to creating sustainable solutions to lead an eco-conscious future.

ABOUT THE PROGRAM

Here at Bidi™ Vapor, we created the Bidi™ Sticks to lead the way to an environmentally friendly and conscious usage of e-cigarettes. We have recently launched a program focused on promoting sustainable practices of using the Bidi™ Stick - the Bidi™ Cares initiative. With this program, we strive to make vaping healthy not only for adult smokers but also for the environment.

Bidi™ Vapor does not only promote proper recycling and usage of e-cigarettes, but we also initiate and take action. To further motivate users to recycle their empty Bidi™ Sticks, we created the Save a Bidi™ Stick, Get a Free Bidi™ Stick initiative. You can ship us 10 empty Bidi™ Sticks and we will send you back one Bidi™ Stick. This is also our way of saying gratitude to our consumers for helping with our eco-friendly and sustainable cause.

THE PROBLEM

Vaping is the new talk of the town. From its smoking cessation benefits to health matters to youth prevention, everyone seems interested in talking about the promising product. Most companies focus on the health benefits and remarkable features of vape products. They talk about the number of flavors available and the percentage of nicotine it contains. There is one thing most these companies fail to give attention to - how the production and distribution of vape pens influence the environment.

The attention that vape products have captured has also gained a lot of sales these past few years. With this, the problems with proper waste disposal and responsible recycling have risen as well. Companies giving so little to none concern on how their consumers dispose of their vaping products are dangerous to the environment. Without proper guidance, there will be less initiative on responsible vaping.

WHY BIDI™ CARES: SAVE YOUR BIDI, SAVE YOUR PLANET IS THE SOLUTION

The rise in sales of disposable e-cigarettes also brought an increase in waste related to vaping products. Bidi™ Vapor believes that with an effective initiative and proper genuine guidance, we can save our planet with sustainable use of vape products.

Bidi™ Vapor does not only promote proper recycling and usage of e-cigarettes, but we also initiate and take action. To further motivate users to recycle their empty Bidi™ Sticks, we launched the Save a Bidi™ Stick, Get a Free Bidi™ Stick initiative. With this program, we aim to create a mindset of caring for the environment to our users.

WHAT MAKES BIDI™ STICK RECYCLABLE?

- **Pharmaceutical and Medical-Rate Pad.** Bidi™ Stick has a pharmaceutical and medical-rate pad instead of the usual synthetic cotton. This is healthier as it protects your lungs from droplets. This is also a win for the environment since synthetic cotton is more difficult to recycle than the pads used in Bidi™ Stick.
- **High-Quality Recyclable Battery.** Most batteries in e-cigarettes contain heavy metals that need extensive treatment to remove all its residual metals. Bidi™ Vapor has carefully thought of how we can improve the recyclability of e-cigarettes batteries. The battery used in every Bidi™ Stick contains a high-quality battery that has been certified by FCC, CE, and ROHS. It is 2.8x more expensive than the usual batteries but also stronger to be recyclable. It is an investment in making Bidi™ Stick a high quality and eco-conscious product.

PROCESS FLOW: HOW DOES Save a Bidi™ Stick, Get a Free Bidi™ Stick WORKS?

For every 10 Bidi™ Sticks, you can get one Bidi™ Stick for free.

You can get your free Bidi™ Stick in four easy steps:

1. Go to our website (www.bidivapor.com).
2. Print a return label.
3. Pay for the return label.

4. Ship the 10 Bidi™ Sticks back to us.

The last step - save the environment and enjoy your free Bidi™ Stick!

FREQUENTLY ASKED QUESTIONS (FAQS)

1. Do we pay for the shipping cost? How much is it?

The shipping cost will be determined by the customer's location. Our website has a program that will automatically calculate the shipping cost based on the customer's location.

2. What is your partner courier?

Our partner courier is the United States Post Office or USPS.

3. What will happen after I send my 10 used Bidi™ Sticks?

Once the customer has produced and paid for the label, the customer can then ship the 10 used Bidi™ Sticks to Bidi™ Vapor. In return, the customer will receive one free Bidi™ Stick.

4. What states and countries is this available for?

The Bidi™ Cares program is available in all of the United States, New Zealand, Australia, and every country Bidi Stick is sold to.

BIDI™ CARES: A GAME CHANGER

Subtitle under: Bidi™ Stick changes the game in the convenient vaping industry through environmentally-friendly and sustainable efforts. Bidi™ Stick battery costs about 2.8x more than the conventional electronic cigarette or vaping devices, and the reason why the Bidi Stick specs such a high-end battery is because we care about the environment and your Bidi Experience.

BIDI™ CARES ANNOUNCES NEW ECO-FRIENDLY PLATFORM

Subtitle under: Vaping saves lives through transitioning adult smokers away from the harms of cigarette smoking. The focus of the vaping industry in the world today excludes an essential factor—the environment primarily. But for the first time, in the vaping industry, someone finally cares.
