Your baby will love snuggling up in this cozy baby nest. It is incredibly soft on the skin and feels almost like sleeping on a cloud. (At least that's how we imagine it feels like sleeping on a cloud.)

✓ Snug and safe environment

The padded sides provide your baby with a comfortably snug and safe environment, which favorably affects your baby's sleep duration. (We are all for anything that contributes to – potentially – sleeping a little longer in the mornings.)

✓ Use it everywhere

This compact baby nest is perfect as an inlay for a cot, and you can also put it on your bed and sofa to always have the little one close. It is also great to bring on your trip!
